

# MULTI-PROCESSING COMBINATION MACHINE FOR PLATES

## ONE MACHINE DOES IT ALL

**PLASMA CUTTING ■ DRILLING ■ BEVELING ■ TAPPING ■ MILLING ■ MARKING ■ COUNTERBORING**

- ★ 48HP **Kinetic K5000XMC** multi-processing combination machine
- ★ 24-tool automatic spindle tool changer
- ★ Production drilling up to 4" (100mm) diameter, 8" thick
- ★ Tapping capacity up to 1-1/4" (M32)
- ★ Face and end milling, interpolation of large holes
- ★ Plasma cutting and beveling
- ★ Percussion marking for part identification

### Why Hagerty?

- ★ Quick turnaround and on-time performance
- ★ No order or parts minimums: from 1 to 1000+ pieces
- ★ Save on labor, machining, forming and time
- ★ One-stop shopping from material to finished part
- ★ Reduce your scrap and increase your profits

19" LCD touch-screen to accurately monitor multi-step, multi-tool processing for your job

Quick 2-second spindle tool change for less downtime than manual processing

Fast, accurate calibration for tool changes

Expansive 16' x 40' cutting table allows small parts to be processed side-by-side, or large orders to be cut within full plate size
